About me

Experienced and dedicated Webmaster/Content Manager with a proven track record of efficiently managing and optimizing website performance. Proficient in a wide range of web technologies and platforms, including content management systems and front-end development tools. Skilled in maintaining website security, ensuring optimal functionality, and implementing user-friendly design elements. Committed to delivering exceptional user experiences and driving online success through strategic web management practices.

Computer Skills

Experience

Webmaster/Content Manager Springbok agency | April 2023 - 2024

- Maintained and updated the company website for B2B and B2C to ensure optimal functionality, security, and performance.
- Created and published engaging content, including text, images, and multimedia elements, using content management systems (CMS) such as AEM Cloud, Drupal, WordPress, and Webflow.
- Implemented search engine optimization (SEO) strategies to improve website visibility and increase organic traffic.
- Created components, testing and set up email slicing using services such as Mailjet and Mailchimp.
- Implemented website designs using Figma prototypes, ensuring accurate translation of design concepts into functional web interfaces.
- Served as the project manager for small projects.

Student job Easylife | 2022 - 2023

English to Spanish Translator Fedasil | 2019 - 2022

- Ensured cultural relevance by adapting translations to suit the target audience, accounting for regional differences, idiomatic expressions, and cultural nuances.
- Handled sensitive information with discretion and maintained confidentiality.
- Provided excellent customer service by promptly addressing inquiries and exceeding client expectations.

Personal Skills

Languages Skills
